

The Fund of the Future

You're dedicated to saving and growing your money for a bright future. But with its obsessive focus on the here-and-now, the stock market doesn't always share your long-term perspective. To be successful, you need your investment solutions – and the people behind them – to *look further*.

Reaching beyond the near-sighted churn of the markets, **BMO Concentrated Global Equity Fund** invests in a hand-picked, limited selection of large, stable companies from around the world. But they're more than just great companies – they're leaders in great industries. Every one of them is ideally positioned to benefit from a rapidly changing world, with strong tailwinds helping drive the long-term, sustainable growth you need.

Untapped potential in familiar industries:

The global transition to digital payment systems

Mastercard

A boom in travel and online booking websites

Booking Holdings

An aging population's desire for an active lifestyle

Nike

Explosive demand for fast food in China

Yum China

The Fund typically invests in 20 to 25 quality companies that exhibit good value for the price, determined after up to a year of in-depth analysis. Each has a long history of reliably navigating a range of economic and market conditions, delivering healthy returns with less volatility.

A unique global equity strategy with over two decades of enhancements – now available to Canadians.

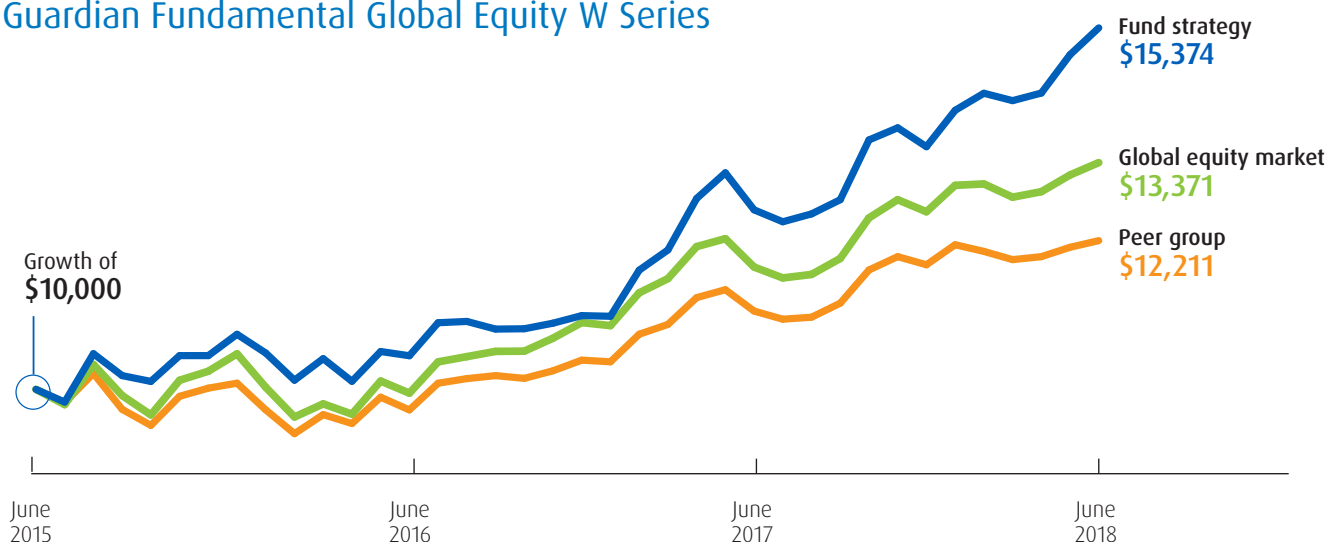

More is not always better

Investing in the broad market means taking the good with the bad – and everything in between. The global equity market, represented by the MSCI World Index in the chart to the right, contains over 1,600 companies. Selecting the best of the best is not easy, but it's precisely how this strategy has achieved such impressive growth over the years.

For a brighter future, choose an investment solution that matches your own commitment. Consider adding **BMO Concentrated Global Equity Fund** to your portfolio.

BMO Mutual Funds are offered by BMO Investments Inc., a financial services firm and separate legal entity from Bank of Montreal. Commissions, trailing commissions, management fees and expenses may be associated with mutual fund investments. Please read the fund facts or prospectus before investing. The indicated rates of return are the historical annual compounded total returns for the period indicated including changes in unit value and reinvestment of all distributions and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
