

BMO Dividend Fund

Not all Guarantees are equal

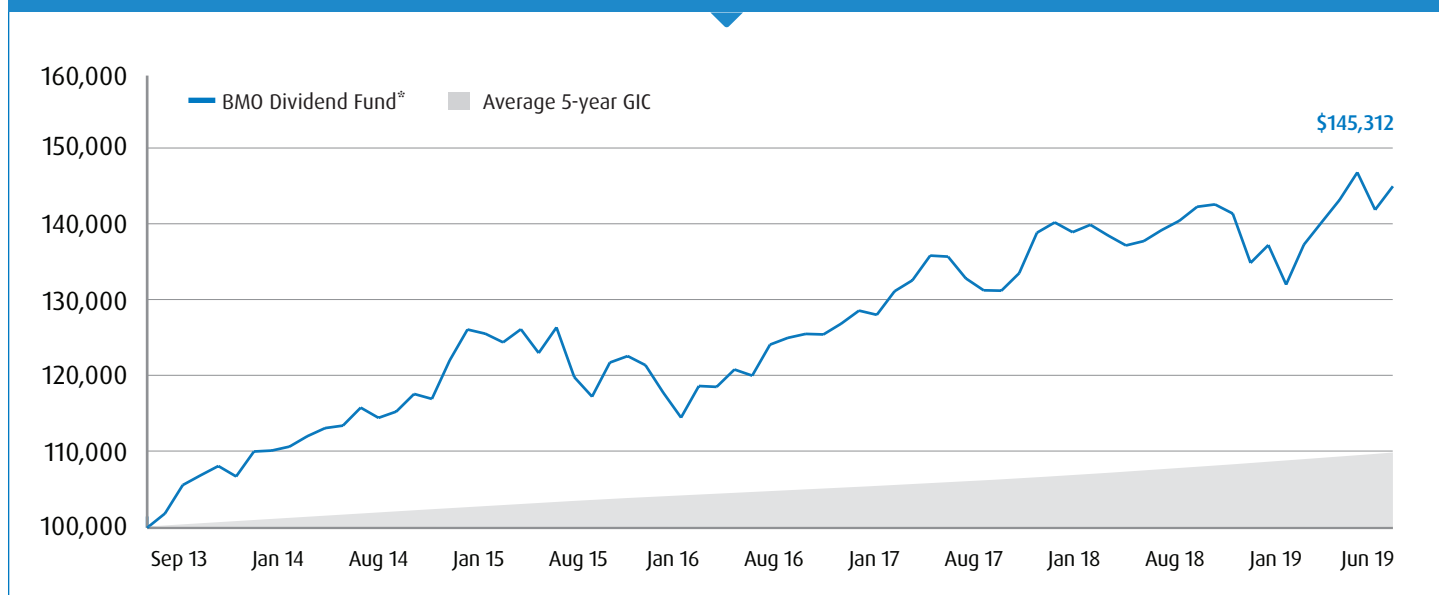

GICs are great when it comes to guaranteed returns, but in today's world those returns are historically low, plus the returns are guaranteed only if you hold until maturity for the selected term. If you need access to these funds before maturity, for emergency or other reasons, there are usually some heavy penalties for early redemption.

With **BMO Guaranteed Investment Funds (GIF)** popular no-load plan, you can access your funds anytime, usually without penalties.

Plus BMO GIFs offer as much as 100% participation in the equity markets, allowing for potentially higher returns while offering guaranteed values at maturity or on death. As an optional benefit, when markets do well, BMO GIFs can also regularly and automatically lock-in those gains to increase the guaranteed amounts at maturity†.

Retirement planning has never been easier. Let us show you how BMO GIFs can help with your wealth accumulation, estate preservation and wealth transfer needs.

Growth of \$100,000
